

MISSION

The variety and quality of experiences during the first eight years of life provide the essential foundation for each child's future success. The purpose of this resource is to ensure continuity of practice among families, educators, and community partners that leads to optimal conditions for learning.

GOAL

Professionals and stakeholders will understand and implement research-based, developmentally appropriate practices; ensuring alignment birth through third grade.

STAKEHOLDERS

Children, Families, Community Partners, District Administrators, Principals/Site Administrators, Teaching Teams, Child Care Providers, Service Providers, Higher Education.

BIRTH TO THIRD GRADE ALIGNMENT TARGET

Knowing about Child Development and Learning

It is essential that the school, community, and families embrace the birth to 3rd grade learning continuum that builds a strong foundation of supports for children with a deeper understanding of appropriate teaching practices to help children be engaged and successful learners.

Knowing What Is Individually Appropriate

Understanding what children know and can do, how they process information, solve problems, and how they interact with other children and adults, guides student learning and growth along the birth to 3rd grade learning continuum.

Knowing What Is Culturally Appropriate

Educators must accept the legitimacy of children's home language, respect (hold in high regard) the home culture, and promote and encourage the active involvement and support of all families, including extended and nontraditional family units" (NAEYC 1995, 2).

Example Implementation Indicators

Superintendents, Principals, Teachers, Staff, and Community-based Partners

- Understanding of what young children, birth through third grade, need to know and be able to do
- A learning continuum that supports individual children's continuous progress from year to year
- Ongoing communication with families
- A shared responsibility for children's learning

Data Collection and Analysis Options

Focus group
 Observations
 Self-assessments
 Document review and alignment analysis
 Tracking Professional Learning activities
 Family participation in conferences and other school events
 Family responsiveness to school communications
 School responsiveness to family communications

Evidence

Every child experiences success
 Schools are ready for children by providing a welcoming environment
 Lesson plans and observations reflect developmentally appropriate practices and align with standards
 Administrators and school staff are proactive by providing a welcoming and inclusive environment for families and timely sharing of information on child development, where their child is on trajectory, and how collaboration contributes to success
 Curriculum, pedagogy and developmental continuum are aligned
